

## Remote Stereo Viewer (RSV): Group Sessions

This document is designed to help multiple viewers use RSV to take turns leading and following.

### RSV Setup:

1. Download the zip file to the desktop.
2. Extract the file using the Winzip program :
  - a. Select all the files in the zip window.
  - b. Click the *Extract* icon to add the files to the desktop. Note: If you do not have the winzip program download it from to [www.winzip.com](http://www.winzip.com).
3. Open the iAnatomy folder just created and double-click *setup.exe*. A black screen will pop up instructing you to send email with the information. Once you receive an email confirmation, you can begin to use RSV.
4. Open Internet Explorer 6.0 . Type <http://ianatomy.stanford.edu> in the Address box.

5. Click on *Group Sessions*.

6. Put your 3-D glasses on.

To resize the image you may want to maximize the window.

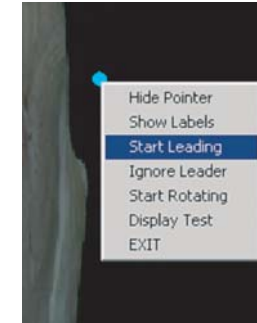

## Instructions for Exchanging Roles
